

James Sunderland MP

HOUSE OF COMMONS

LONDON SW1A 0AA

July 2020

Dear Constituents,

Thank you for taking the time to contact me about the proposed Bill by Gavin Newlands.

As I have been on the record and stated, my focus is on helping persuade BA/IAG to reconsider their current actions and work together to get us all through this worrying and difficult time. Over the past two months, I have spoken to the Chancellor in the Commons on this issue, become one of the first MPs to support Hue Merriman's Aviation Debate and finally, signed my very first Early Day Motion in my career as an MP on this important matter. I have linked information on these actions below.

As I am sure you will appreciate, the considerable volume of correspondence I have received on this important matter means I will summarise my views on Gavin Newlands Bill. I am supportive of the sentiment behind Gavin Newlands Bill. However, it is important to realise all MPs are focussing on making sure British Airways does the right thing on its own accord.

Please be assured that as someone who has taken the initiative on this matter as outlined above, I am continuing to be supportive of efforts to reverse the redundancy plans outlined by British Airways.

Thank you once again for taking the time and effort to contact me. I wish you and your family all stay safe and well in these challenging times.

Yours aye,
